- I believe you should incorporate local legend and indigenous people by bringing into our he mural the legend of the dripping Springs and the Indian Maiden that gave Creve Coeur park its name. That story mixes together a sweet blend of French heritage, indigenous people heritage, and supernatural that make for a wonderful story that should be part of the mural.
- Yed
- “The crown jewel of our community is Creve Couer Park. But I do not think this aspect need to be incorporated into a mural.

- Anything but the derelict properties that surround the area where you want to put the mural! Please don’t make it look worse than it already is. If you make it have a graffiti look I am moving!
- I don’t see a lot that makes Maryland Heights really stand out. We have Creve Coeur Lake, and the MH Community Center and water park, which are good. Other communities have a Community Center and some have water parks, tho. While some may say the casinos are an amenity--I don’t use them and don’t really value it. I don’t go to the music center since ticket prices are high and the traffic is too cumbersome. Nevertheless, MH is a nice, afe community with friendly people--which I do value.

A walk through Crevecour park and our wonderful parks through Maryland Heights. Aqua port and the community center. Also add our local area restaurants and bars throughout Maryland Heights and Westport Plaza.
